

STARSTRUCK

FOUR WAYS TO SEE THE NORTHERN LIGHTS

HELLO!

Those who have been lucky enough to witness the Northern Lights claim that photos pale in comparison to the celestial display of the Aurora Borealis dancing, curling and

flickering across the starry sky. In the Winter and Spring months, when the sky is darker and clearer, you can trek to the far northern parts of Finland, Iceland, Sweden and Norway for the very best odds of capturing this natural phenomenon with your own eyes. Below are four travel ideas to spark your imagination.

GLASS IGLOO GLAMPING IN FINLAND KAKSLAUTTANEN ARCTIC RESORT

The Finland hotel with the world-famous two-person glass igloos has added larger new “Kilo-Glass igloos” to their accommodations. Up to six guests can admire the Northern Lights from the comfort of a warm log chalet outfitted with a private sauna, fireplace, kitchenette and bedroom with a stunning glass roof. The hotel's organized aurora trips start in late August, allowing for guests to chase the lights on horseback at night and canoe in the wilderness by day.
